#### Abstract

News Looks like Week 7 was a good week for Team 7 as they surged ahead of Team 4 and into $1^{\text {st }}$ place led by Keith Casey in the A squad who posted a 39 . They were helped by Team 2 who took 40 points from the previous leader Team 4. But we all remember last year when Keith's team had the best record in each half yet lost each of their playoff matches. Will this be repeated again this year? Speaking of Team 4, with their loss this week and a bye week coming up, they could fall out of $2^{\text {nd }}$ place by the end of next week. Less than 6 points separate the $2^{\text {nd }}$ through $5^{\text {th }}$ place teams so it is anyone's game. Team 2 is bouncing back after a string of declining scores for the last 5 weeks and Team 9 continues to be the benefactors of playing Noahs and subs and keep climbing up the leader board. For some reason, we think Griffin and Macksoud are somehow behind the fact that they manage to play Noahs and subs each week. If it happens for a third week in a row, we know something is up! Unfortunately we will not be able to monitor their email traffic to ensure that no plots are evolving. Due to the expiration of the Patriot Act, NSA won't be providing us that info! And don't count out Team 3 who is still hanging around. Team 7 also has a bye the last week which opens up opportunities for another team to take $1^{\text {st }}$ place with good rounds over the last two weeks.

News on the midyear tournament will be announced anytime (maybe before you read this). Keep an eye out for emails and more detailed information on the web page.

## Notes:

This year we have implemented hole-by-hole scoring into the online system. What we mean by "scoring" is we enter actual strokes taken. The system then calculates the CORRECT MATCH points per hole based on those strokes taken. This alleviates common
errors as found on the cards (many times where strokes were not given or taken properly and added incorrectly.) When people are attesting the cards, they are attesting to the strokes taken.

Captains should e-mail the handicapper, Pete Michno, no later than 1100 Thursday to give their line-ups. However, I'm sure the handicapper would appreciate Captains providing the line-ups earlier if you have them set. 1100 on Thursday should be the exception, not the rule.

Captains should inform all retirees and non-NUWC members on their teams to use the website for all League information.

## Slow Play Watch:

I had another early tee time this week and finished in about 2 hours and 20 minutes. A certain Team 1 Captain was called out in the $19^{\text {th }}$ hole to which he adamantly argued to the contrary. Regardless, you all know that we remind you every week to keep up the pace of play.

## Joke of the Week

## Small World

Alex and Jim are trying to get in a quick eighteen holes, but there are two terrible lady golfers in front of them hitting the ball everywhere but where it's supposed to go.

Alex comments to Jim, 'Why don't you go over and ask if we can play through?'

Jim gets about halfway there, turns and comes back so Alex asks, 'What's wrong?'

Jim replies, 'One of them is my wife, and the other is my mistress.'

Alex responds, 'That could be a problem. I'll go over and have a word.'

He gets about halfway there and he turns and comes back, too.

So Jim says, 'What's wrong?'

Alex murmurs, 'Small world.'
