

Two Ball - Best Ball Tournament Rules

Every player plays his own ball. On the scorecard (see sample scorecard below) the hole where a player gets a stroke is already indicated on the card. Mark each player's individual score on the scorecard. In the last row (titled 2 Ball net), take the two low net scores (low net is player's score minus handicap strokes) and add them together. This will be the 2 ball net score for the foursome. In the last row (titled 2 Ball gross) on the scorecard, take the two lowest scores of the foursome (handicap strokes are not included in this calculation) and add them together. This will be the 2 ball gross score for the foursome. After the totals have been calculated, write the two scores on the top of the scorecard. Any scorecards that are not scored correctly or completely, will not qualify for tournament prizes.
